Dr Chris Brown – publications

Publications are divided into (1) full length refereed papers or chapters in books and (2) refereed short communications. These are indicated at the end of each paper. Asterisks next to an author’s names indicate undergraduate or postgraduate student authors or co-authors.

Publications in Peer-reviewed Journals

Temperature and food as factors influencing oxygen consumption of intertidal organisms, particularly limpets. *Amer. Zool.* 28: 137-146. (1)
