

# Partner Institutions

## High quality partnerships

The University of Worcester is a high quality University with an international reputation supplying Higher Education learning opportunities accessible to all in a genuinely open and supportive environment.

## Widening participation

We are committed to widening participation and increasing student retention in Higher Education. This is achieved by stimulating and facilitating progression into and within our course programmes, especially through educational partnerships, opportunities for learning for all within the community, and enhanced student support.

In order to serve the needs of the regional community in partnership with the other providers in education and training, the University of Worcester has formed close links with local and regional schools, colleges and employers.

These links aim to promote participation locally in Higher Education, extending the range and level of programmes and qualifications offered. We aim to strengthen and extend the subjects areas offered, providing development and support and interaction for Further Education and Higher Education staff.

## We run courses in partnership with the following institutions:

- [Autism West Midlands](#)
