

Dr Pete Moody

Senior Lecturer in Computing

Worcester Business School

Contact Details

email: p.moody@worc.ac.uk

tel: 01905 54 2199

Within Worcester Business School, Pete's roles include chairing the Quality Committee, and being the Exams and Assessment Officer. From the student perspective, Pete is also one of the Business School's Academic Integrity Tutors: while this unfortunately means that he has to deal with occasional cases of suspected cheating, Pete sees it as more to do with helping students to use sources properly in their assignments, and so not do anything that could be seen as cut-and-paste plagiarism. Pete's teaching is mainly to do with computer hardware and networks.

Teaching & Research

Computer Networks
Meteorology
Atmospheric Science
Computer Architecture
Networks and Information Security

Professional Bodies

Fellow, Royal Meteorological Society
Associate Member, Institute of Physics
Member, Higher Education Academy

Publications
