

# Graduate Research School

The University's Graduate Research School (GRS) is the focal point for all our research degree students. We provide:

- day-to-day support for our students, both administrative and practical, through our dedicated team
- work space and other facilities including: office space and computing facilities for all our full time students; and hot desks and computing facilities for our part time students
- a research student training programme, offering modules and workshops for PhD and MPhil students
- a programme of conferences and seminars organised by and for our research students

The Graduate Research School also has broader responsibilities for supporting and promoting research both across the University and externally and works closely with academic Institutes in this role.

If you wish to learn more about the GRS please contact us on 01905 855214 or email [research@worc.ac.uk](mailto:research@worc.ac.uk) or visit the [GRS internal pages](#).
