

International

We value internationalisation across all of our courses. We actively participate in recruitment worldwide and currently have students studying with us from Australia, Ghana, Kenya, Zimbabwe, Poland and Sweden.

Study overseas

We also encourage students to study overseas as part of their course whenever possible. This can either be a practice based experience, academic experience, or a combination of both. Opportunities range from a few weeks to a whole semester with one of our worldwide partners. Students undertaking research degrees have the opportunity for comparative analysis studies with our international partners.

Collaborative research with our international partners is encouraged amongst students and staff.

Get in touch

Contact our International Coordinator by email: international@worc.ac.uk or telephone: +44 (0)1905 855383
