

Postgraduate

- [Advancing Practice MSc](#)

Responding to the needs of modern healthcare, this is a dynamic and multi-faceted postgraduate programme that helps practitioners to move confidently into new and more demanding areas of work.

- [Applied Psychology MSc](#)

This Applied Psychology MSc encourages students to study a specific area of psychology at an advanced level and provides skills for advanced research or further vocational training.

- [Business/Occupational Psychology MSc](#)

This innovative development presents two postgraduate qualifications that apply psychology to business and organisations in general.

- [Counselling MSc](#)

This course has been designed to provide continuing professional development for counsellors or people who use counselling skills as part of their professional role.

- [Dance Therapy MSc/PGDip/PGCert](#)

The world's first Masters level degree in Integrated Dance Movement Therapy (IDMT), this innovative course transcends national, social and disciplinary boundaries.

- [Dramatherapy MA](#)

The programme is designed for people from a variety of backgrounds including creative arts practitioners, educators, health professionals and care workers.

- [Dynamics of Domestic Violence MA](#)

This course was developed in response to the governmental White Paper 'Safety and Justice'. It ran as a postgraduate certificate from 2005 until 2010 and was developed into an MA starting in 2011 as a result of a glowing periodic review report.

- [Nutritional Therapy MSc](#)

Accredited by the Nutritional Therapy Council, this innovative course has been developed in response to the growing demand for high quality theoretical and practical skills provision in nutritional therapy.

- [Psychology MSc](#)

This course is for university graduates who wish to pursue a professional career or postgraduate study in psychology but who do not hold an Honours Degree in psychology.

- [Psychological Therapies MSc](#)

This course is designed to cater for Psychology graduates who have a special interest in Psychological Therapies, perhaps with a particular aim to continue towards professional training in Clinical or Counselling Psychology.

- [Social Work MA](#)

This MA in Social Work delivers a professional qualification combined with an academic award. Successful completion of the course allows registration with the GSCC, allowing you to practice as a social worker in the UK.

- **[Social Work and Community Studies MA](#)**

This programme invites graduates with an academic or practice interest in social work, community work and related fields of practice to achieve a Masters level development of their practice, study and research interests.

- **[Sports Therapy MSc](#)**

The MSc Sports Therapy delivers a professional qualification combined with an academic award. The course is accredited by The Society of Sports Therapists.

- **[Systemic Youth Work MA](#)**

If you are an experienced and qualified practitioner, this Masters in Systemic Youth Work will provide a space for you to reflect and think about the changes taking place in children and young people's services.
