

STEM ambassadors

The STEM Ambassador Programme

STEM Ambassadors are individuals who are willing to give their time and energy free of charge to help inspire young people in the areas of Science Technology & Design, Engineering, and Mathematics. They can do this in a variety of ways from illustrating specific careers or helping with classroom activities to assisting in extra-curricular activities such as clubs, challenges and competitions.

For more information or enquiries about the STEM Ambassador Programme for Herefordshire & Worcestershire please email the STEM Support Office at ambassadors@worc.ac.uk

Find out more information from the STEMNET website All STEM Ambassadors must attend an Ambassador Induction Session (approx an hour and half duration) and complete a CRB check.
