### Date:

Tuesday 15 June 2021

9.30am—3pm

**Fee:** £130 per delegate  
(lunch will be provided)

**Venue:** University of Worcester

### Book This Course

If you wish to enrol please email  
[cpdeducation@worc.ac.uk](mailto:cpdeducation@worc.ac.uk)

We will then send you a  
confirmation email.

**This friendly and interactive course is aimed at TAs/ HLTAs/LSAs who would like to enhance their subject knowledge, confidence and teaching strategies to support pupils to achieve their very best in English and mathematics.**

#### The course will focus on:

- Key areas of the National Curriculum in both English and mathematics.
- An insight into how children learn and some key pedagogies.
- The use of subject specific terminology and what it really means.
- The use of questioning to develop pupils' inference in English and reasoning in mathematics.
- Great practical ideas to try and take-away!

*"Teaching assistants should have sufficient knowledge and skills to help teachers support pupils in achieving their maximum potential. This could include: subject knowledge; specialist skills and knowledge to support pupils with special educational needs or disabilities; knowledge of the curriculum; pedagogical knowledge; behaviour management strategies."*  
Professional Standards for Teaching Assistants
