The wording relating to research misconduct is to be reviewed to ensure there is no ambiguity over the statement that there were no investigations of research misconduct in 2020/21 and no identified cases of misconduct.

34.2 The Board thanked the Deputy Pro Vice Chancellor Research for his report and noted its timeliness, particularly as the inaugural co-chairs of the UK Committee on Research Integrity were about to be announced.

34.3 The Board approved the annual report of Research Integrity 2020/21, which will subsequently be published on the website. The Board is to receive the report on an annual basis.

21/35 Students' Union Business [BG21/39]

35.1. The Students' Union officers presented their update on the Students' Union activities and highlighted the success of Wellness Day and the very positive work in conjunction with Heads of School to support students. Student mental health and the decrease in student engagement were felt to be the most challenging issues currently. It was noted the decrease in student engagement was being seen across the sector and it is thought the pandemic has had a significant impact on student engagement. It was suggested employability and upskilling would be useful areas in which to support students and governors offered to support the Students' Union in these areas. Members noted the results of the Life Skills Survey.

35.2 The Board congratulated the Students' Union on all their work and received the report.

21/36 Vice Chancellor's Report [BG21/40]

36.1 Since writing his report, national restrictions relating to Covid-19 have been lifted and the Vice Chancellor reflected on the course of the pandemic at the University and noted the University had continued to function and hold events such as Graduation. As the Students' Union report highlighted, disruption caused by the pandemic was much more to do with wellbeing, both of students and staff.

36.2 *[NOT FOR PUBLICATION]*

36.3 The Vice Chancellor noted the significant government led changes underway in the organisation and delivery of teacher education. The University intends to continue offering initial teacher education and continuing professional development and has applied for re-accreditation to continue to do so, as all providers have had to do. An Ofsted inspection is expected this academic year and the Board noted the outcomes of Ofsted inspections at some neighbouring universities. The University is also concerned to develop tutors to help children to progress educationally and the Vice Chancellor has put forward proposals for how students could be trained to be tutors.

36.4 The Board noted the appointment of an interim Chief Executive and a new Director of Fair Access at the Office for Students, and the focus of the latter on developing partnerships between higher education providers and schools.

36.5 *[NOT FOR PUBLICATION]*

36.6 The Director of Communications and External Affairs gave a presentation on student numbers including an analysis of applications, comparison with other universities, the steps the University is taking to drive interest from potential students, including new course development and the prospects for growth. The presentation was followed by group discussions.

21/37 Academic Governance

37.1 Acting Provost's Report [BG21/41]

37.1.1 The Acting Provost presented her report, highlighting the following points:

- Teaching: the University continues to maintain very high levels of face to face teaching and as restrictions are lifted further, looks forward to even more.

- Academic developments: a great deal of work is being done around developing the course portfolio and addressing the skills gap, through apprenticeships where appropriate. The Government's Lifelong Loan Entitlement (LLE) that will be available to students from 2025, will allow students to study in bite-sized chunks throughout their careers. The School of Education, in collaboration with the Learning Institute submitted a bid to the OfS Higher Education Short Course Trial Challenge Competition and secured £117K to develop 16 short courses. In addition, the School of Psychology and the School of Allied Health worked hard to secure funding for a contract with Health Education England to develop a Mental Health and Well-being Practitioner Course. There continues to be good progress on appointing core staff for the Medical School and planning for the first cohort of students. Work is also progressing on developing the course portfolio for the Dudley University Centre.

- Academic Governance: the University is currently engaging in three new OfS consultations relating to a new approach to regulating student outcomes, the Teaching Excellence Framework (TEF), and an approach to constructing student outcomes and experience indicators. The OfS have issued data sets to providers to assist them in understanding the implications of the proposals and University officers are currently working through them to assess the University's likely position. *[NOT FOR PUBLICATION]*.
