

# Responsible Futures Project Plan 2020 - 2022

## Project Summary

### Introduction

Responsible Futures is an externally-assessed certification from SOS-UK of a whole institution approach to social responsibility and sustainability (SRS). By 'whole institution', that is a Partnership between the Students' Union and the University.

The scheme provides a framework for action that will help facilitate institutional change. The accreditation mark recognises and celebrates progress being made along a journey of change, rather than it being certification of an endpoint. Once awarded accreditation lasts for 2 years. UW has held accreditation since 2015 and most recently reaccredited in April 2020. The Sustainability Strategy Group provides the forum for the monitoring of the Responsible Futures Project Plan, developed jointly by Worcester Students' Union and the University, which seeks to build on our accreditation successes and set out a pathway for development and successful reaccreditation.

The key recommendations from the April 2020 re-accreditation audit were:

- Ensure that the SU has a stronger voice/role in the partnership.
- Ensure evaluation of all RF activities.
- Shape student expectations and experiences of ESD in the formal curriculum, ensure this is more embedded and there are clear opportunities for students to assess their engagement.
- Gain feedback on the impact of RF work on students.
- Communicate RF work more extensively to the student/staff body and more widely to local communities.
- Enhance awareness of social sustainability issues.
- Engage with other RF partnerships to share good practice.
