

2019-20 access and participation plan monitoring

This impact report summarises the progress made by University of Worcester against targets, objectives and written commitments set out in its 2019-20 access and participation plan. This document is a summary of information submitted by the provider to the OfS. This document is a self-report by the provider only and does not indicate any OfS assessment of compliance.

1. Ambition and strategy

University of Worcester's ambition and strategy as detailed in the 2019-20 access and participation plan:

We have a continued commitment to embed both our pre and post 16 outreach programmes to increase applications to Higher Education from the most underrepresented groups, and to our collaborative work through Aimhigher west midlands and the OfS Uni Connect programme.

Student continuation and success.

Student continuation and success remains a key priority for the institution; we are committed to maintaining the successful elimination of gaps in outcomes for our disabled students and strive for continuous improvement in the outcomes for students from BAME backgrounds at all levels, stages and across all programmes.

The university committed to 5 goals:

- Increase applications from students from underrepresented groups across all subjects
- Reduce gaps in continuation between different groups of students
- Reduce gaps in outcomes between different groups
- Improve progression and to eliminate gaps between different groups
- Strengthen our approaches analysis, planning, monitoring and evaluation

In setting these ambitions the university committed to the following key aims for development:

- Develop institutional capacity and expertise in data gathering, analysis and evaluation at all stages of the APP process
- Invest in our people to develop skills, understanding and awareness of measures and practices needed to fully develop our Whole Institution Approach
- Strengthen communication, coordination and engagement at all levels and across all areas of the institution
- Deliver cohesive approaches across strategic agendas e.g. TEF, L and T, E and D
- Develop the practice around evaluation and monitoring of practices

2. Self-assessment of targets

The tables that follow provide a self-assessment by University of Worcester of progress against the targets approved in its 2019-20 access and participation plan.

Please note the tables contain only a summary of target milestones approved in 2019-20 access and participation plans. Full information can be found in **Table 8a – statistical targets and milestones** and **Table 8b – Other milestones and targets** of University of Worcester’s 2019-20 [access and participation plan](#).

Any optional commentary provided against the targets is given in [Annex B](#).

3. Investment commitments

3.1. Access and participation investment for the last audited year

Please note that some differences in predicted vs actual spend may be due to reporting differences between academic and financial years.

Financial year	2019-20		
	Predicted spend (£)	Actual spend (£)	Difference (ppt)
Access investment	£1,032,261.00	£988,000.00	-4%
Financial Support	£1,032,281.00	£1,222,000.00	18%

4. Action plan

Where progress was less than expected University of Worcester has made the following commitments to increase the rate of progress against their targets.

Reference Number	Steps that will be taken in the future to make expected progress against target
T16a_01	We will target outreach to specific schools, colleges and geographic.
T16a_02	We will continue our work with our partners, evaluating the impact of our approaches and support continued development of outreach work specifically targeted at the most underrepresented groups.
T16a_03	We will use the data analysis to develop a logic approach to our outreach delivery.
T16a_04	As above.
T16a_05	We have plans to develop our work with FE and have significant plans to work with Dudley College on the creation of a University Centre focussed on Health Care programmes.
T16a_08	The Learning Institute has well established approaches to growing learner participation in its programmes.
T16a_25	We will continue to focus on specific programmes for students to prepare them for the graduate employment market.
T16b_01	We will closely monitor engagement levels and increase availability of sustained progressive programmes for this group of learners.

Annex A: Commentary on progress against targets

University of Worcester's commentary where progress against targets was less than expected.

Target reference number: T16a_01
How have you met the commitments in your plan related to this target?
We continue to work towards increasing the proportion of applicants from LPN and are specifically focusing on targeted work in the Local Herefordshire and Worcestershire area.
Have you taken any additional steps other than that detailed in the plan to reach the selected milestone?
Our work in this area is focused towards local learner populations as detailed in the 2020-21 plan.

Target reference number: T16a_02
How have you met the commitments in your plan related to this target?
We have a continued commitment to maintain our work towards diverse application and admissions practice.
Have you taken any additional steps other than that detailed in the plan to reach the selected milestone?
We are working collaboratively with partners from the Children's and Families workforce to develop non-traditional entry routes for students that recognise prior experiential learning in the workplace etc.

Target reference number: T16a_03
How have you met the commitments in your plan related to this target?
Despite increases in numbers of applicants to these courses we have not made progress in addressing the access gaps.
Have you taken any additional steps other than that detailed in the plan to reach the selected milestone?
We have undertaken significant analysis of our student data to better understand the applicant journey.

Target reference number: T16a_04
How have you met the commitments in your plan related to this target?
As above
Have you taken any additional steps other than that detailed in the plan to reach the selected milestone?

As above

Target reference number: T16a_05

How have you met the commitments in your plan related to this target?

We have had fewer applicants from mature learners.

Have you taken any additional steps other than that detailed in the plan to reach the selected milestone?

We have developed a number of University Centres and continue to work closely with our FE partners to support learners in FE progressing to HE programmes.

Target reference number: T16a_08

How have you met the commitments in your plan related to this target?

Our courses with The Learning Institute went through reapproval and were approved shortly before academic year 2019-20. Their portfolio now includes a suite of 5 new Foundation Degrees, 3 of which are Education degrees. All five degrees are now offered as blended provision. The resulting impact is that recruitment to targets set in the APP monitoring return was not as buoyant as previously anticipated.

Have you taken any additional steps other than that detailed in the plan to reach the selected milestone?

We expect numbers to gradually increase across the new portfolio.

Target reference number: T16a_25

How have you met the commitments in your plan related to this target?

The figure in column T relates to the graduate outcomes survey so cannot be directly compared to the baseline which was set using the DHLE.

Have you taken any additional steps other than that detailed in the plan to reach the selected milestone?

We have developed a specific programme of coaching for graduates from low participation neighbourhoods.

Target reference number: T16b_01

How have you met the commitments in your plan related to this target?

Our ability to meet this target has been limited due to the COVID-19 pandemic and the cancellation of the residential summer school and year 8 day. Numbers reported are those who engaged with the Aimhigher West Midlands mentoring scheme.

Have you taken any additional steps other than that detailed in the plan to reach the selected milestone?

We have invested resource in growing the number of mentoring opportunities available and increasing the duration of engagement.
